6. Overall, good.
7. This is an amazing idea and the interface is clean and easy to learn because it is similar to other apps!

10. Fun design. It would be cool to see this developed further!
11. I like the idea of personalized usernames and pictures, but the user's actual name should still be shown on the account. This would help prevent issues like student harassment.
12. this is awesome!
13. i like the idea of having a school run group chat for studying
14. This feture looks complicated

17. I can see this feature being put to good use. If I can see on the interface people who are on the lookout for study buddies, there are more chances that I will connect with them (rather than going and seeking out study buddies). Maybe this can be a feature too.
18. I like your idea for adding a social feature just like iMessage in the Ed Discussion and I'll use it
19. Awesome prototypes!

32. It is very useful for students to study together.

33. I think this is a great idea  
34. What's a good point! But I suggest that maybe you can focus more on the process or learning together.
